

# RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

How to read the compatibility chart: ○: Can be installed △: Notes must be checked × Cannot be installed

## RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

## RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

## RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

## RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

## RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

# RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

How to read the compatibility chart: ○: Can be installed △: Notes must be checked × Cannot be installed

# RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

## RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.

# RG SUPER HALOGEN BULB

■ Please be sure to read this before purchasing/installing the valve.

\*Depending on the vehicle model, year, type and grade, the bulbs shown in this compatibility table may not be used.

Before purchasing this product, please be sure to check the type of bulb currently installed.

\*When replacing the bulb, be sure to disconnect the negative battery terminal before proceeding.

\*Vehicles that are not listed in this compatibility chart (or are left blank) are vehicles for which compatibility has not been confirmed.

Therefore, please note that we cannot take any responsibility for any malfunctions that occur due to installation on vehicles that are not listed.

\*This product is manufactured and sold as a product that complies with vehicle inspections.

However, since the light color differs from that of genuine bulbs, please note that some inspectors may deem it to be non-compliant.

\*Do not use anything other than normal bulbs on genuine fog lamps with yellow caps.

\*Do not use bulbs with a power consumption (W) greater than the original specifications for light vehicles.

\*If the genuine bulb column says "D2S", "D2R", "D4S", "D4R", the vehicle is equipped with genuine HID.
